## UNIVERSAL RUST PREVENTIVES

**Product Description** **Universal Rust Preventives 1 & 4** are oil-type protective coatings that provide both physical barrier and chemical inhibitor corrosion protection.

**Universal Rust Preventive 2** is a solvent cutback type protective coating.

**Applications** **Universal Rust Preventives 1 & 4** are primarily used as a preventive oil for protection of cold-rolled steel coil and mechanical parts for three to six months.

**Universal Rust Preventive 2** is used where a thin oil film is desired for in-plant protection of parts in process and short-term shelf storage.

Conventional cleaning chemicals can remove all **Universal Rust Preventives**.

**Commented [NC1]:** The applications section was changed on this Per LLW. She wanted it for just one customer.
